Delivering water science that helps people live, work, and play safely

Mississippi-Alabama Sea Grant Consortium

An aerial photograph of a harbor or river mouth. Numerous fishing boats, mostly white with red or blue hulls, are docked along the left side. Some boats have names like "Princess Kelly" and "Quaker Pearl" visible. In the background, there are industrial buildings, a large crane, and more boats. The water is dark, and the sky is overcast.

SOLVING THE PROBLEMS OF THE URBAN OCEAN

CITIZEN SCIENCE

Driving diversity, equity and inclusion efforts across LA County school districts & communities.

MARITIME AFFAIRS

Providing expertise to balance economic and environmental values of the largest port complex in the country.

OUTREACH

Addressing & educating communities on current, sensitive issues such as the COVID-driven escalation of tidepool gathering.

CLIMATE RESILIENCE

Spearheading AdaptLA, a community of practice for regional adaptation planning across LA County.

WE INVEST IN PEOPLE

Virginia Sea Grant prepares students for successful careers in fields like coastal and marine science, resource management, science policy, and resilience design.

VIRGINIA SEA GRANT
